

ELEGANZA

PREMIUM AMENITIES COLLECTION

LANDE.COM

ABOUT ELEGANZA

Eleganza was born from the desire to elevate the presentation of our products to a new level. Each box has been designed with a premium approach, with every detail carefully considered to deliver a more sophisticated, durable, and visually impeccable experience.

Crafted from high-quality materials and finished to exceptional standards, Eleganza represents the next step in our evolution: transforming every delivery into a memorable moment. Designed and manufactured in **Spain**, it reflects our commitment to excellence and meticulous attention to detail.

OUR STORY

The *Eleganza* collection was conceived to convey sophistication from the very first glance. Each case, crafted in a soft and luminous off-white, stands out for its minimalist presence and refined feel.

The design features a carefully applied high-relief embossing, a blind deboss that creates a subtle and exquisite play of light and shadow.

Made in Spain. Crafted with care.

LANDE

DESIGN

The motif, inspired by architectural harmony, features an arch at the top and bottom, from which lines extend in a vanishing-point style, creating a sense of depth and controlled movement.

On the opposite side, the design is completed with double arches printed in a dark brown tone, adding contrast and visual balance that reinforces the collection's premium identity.
